Modification Nb. 11
Glider Rhönlerche II
L-164 (US 7G6)

Sheet 1
Nb. of sheets 1

Installation of the Tost-Sicherheitskupplung Universal/53-Kombi 54
resp. of the modified Tost-Sicherheitskupplung Universal 53
(Modification 2/65)

The unmodified Tost-Sicherheitskupplung is no more allowed for aerotow.
For winch tow the tow hook modification is recommended by the DAEC.

Description of modification:

The old tow hook is to be removed and replaced by a Tost-Kombi-
kupplung. The new hook can only be set in from outside, so the openings
in the sheet metal covering must be adjusted to allow for the bolt
heads and nuts. Be careful to look for full travel of the movable
ring.
