

Subject: 15m outer wings

Applicability: **AS 33 Es**; Type-Certificate EASA.A.656; all serial numbers

Classification: Major Change

Urgency: optional

Reason: Expansion of range of use

Action: Optional installation of the 15m outer wings (AS P/N 330.51.1021) instead of the standard outer wings for 18m span. The detachable winglets are used for both span options. The attachment to the inner wing remains unchanged.

The following pages of the manuals have to be exchanged:

Flight Manual: 1.2

Maintenance Manual: 5.3

The new manual pages are marked with the technical note number TN 04 from 16.11.2021 as revision.

The exchange of the pages has to be noted in the record of revision of the manual. The list of effective pages must be updated, too.

Material and Drawings: See Action

Mass and Balance: The change in mass and C. of G. position has to be determined by weighing.

Notes: The production of parts have to be accomplished by the manufacturer Alexander Schleicher GmbH & Co or a company authorised by the manufacturer.

The installation of the 15m span option has to be considered as a non-complex maintenance task regarding aviation law. The respective regulations must be applied.

Poppenhausen, 03.01.2022

Alexander Schleicher
GmbH & Co.

i.A. 
(T. Mörsel)

This Technical Note bases on a change, which was approved by EASA under the major change approval EASA 10077807.
