

Subject: Wing tip wheels

Applicability: **AS 33 Es**; Type-Certificate EASA.A.656; all serial numbers

Classification: Minor Change

Urgency: optional

Reason: Product improvement

Instead of the standard rubber skid plates on the wing tips, the wing wheels developed for the AS 33 Me can also be used for the AS 33 Es.

Action: After removing the original rubber skids the thread inserts were installed in the lower wing shell at the wing tip according drawing 335.51.9004 (15m) or respectively 335.51.9005 (18m). Subsequent the wing tip wheels (AS P/N 335.51.1002) were screwed to the wing.

Material and Drawings: See Action

Mass and Balance: The change in mass is about 0.5 kg in total without significant change on the C. of G. position.

Notes: Original spare parts with EASA-Form 1 accomplished by the manufacturer Alexander Schleicher GmbH & Co or a company authorised by the manufacturer may be used, only.

The installation of the wing tip wheels has to be considered as a pilot-owner maintenance task regarding aviation law. The respective regulations must be applied.

Poppenhausen, 08.03.2023
