

Doc.-Nr. 256-99-0003-01 Issue: 00 Page: 1 of 1	Technical Note	Alexander Schleicher <small>GmbH & Co. Segelflugzeugbau</small> D-36163 Poppenhausen ADOA AP138
	ASH 25 M – TN 39 New engine model designations	

Issue date: 01.07.2025

Subject: The manuals of the affected powered sailplanes specify the AE50R engine as the used engine type. The manufacturer of the engine has changed the engine designation in the meantime. This Technical Note is intended to clarify the use of engines with a different engine designation.

Applicability: ASH 25 M, all serial numbers without TN 20 (not applicable for ASH 25 Mi)

Urgency: Optional

Material: ---

Drawings: ---

Mass and Balance: The change in mass and C. of G. position after exchanging the engine has to be determined by weighing.

Notes: For works performed on the engine system the respective regulations must be applied.

Approval: ---

Actions

Deviating to the instructions given in the Aircraft Flight Manual and the Aircraft Maintenance Manual engines from the company Austro Engines GmbH with the model designations

AE50RA

AE50RAB

according TCDS EASA.E.085 can be installed in the powered sailplanes listed above. The installation of the engine has to be done according to the applicable manuals and the certified type definition documents.
